SUMMARY

Full-Stack Developer with hands-on experience in building complete web applications, from responsive frontend interfaces using React to scalable backend APIs. Proficient in HTML, CSS, JavaScript, React, Node.js, Express.js, and MongoDB, with a strong focus on performance, security, and clean architecture. Motivated to contribute to impactful projects and grow as a versatile developer.

SKILLS

Frontend Development: Typescript, JavaScript, React, HTML, CSS, Pug

Backend Development: Node.js, Express.js, MongoDB, Mongoose, RESTful API Design, MVC Architecture

UI & Styling: Tailwind CSS, Bootstrap, Vite

EXPERIENCE

Cooke Appz LLP

Web Developer

Present

Perinthalmanna

- Developed and maintained scalable frontend applications using Next.js (React), building reusable components and dynamic UI with optimized performance.
- Built robust business logic, dynamic UI, and responsive designs for a smooth cross-device experience.
- Collaborated with backend teams to seamlessly integrate REST APIs and ensure smooth data flow.

Cooke Appz LLP - Internship

MERN Stack Intern

2025 Oct - 2026 Apr

Perinthalmanna

- Worked on developing and maintaining frontend modules using **Next.js** (React) for a real-world web application.
- Implemented production-ready business logic, validations, and dynamic UI behavior within reusable React components.
- Integrated frontend pages with REST APIs, ensuring smooth data flow and reliable UI updates across modules.

PROJECTS

Drivezy - AI Integrated Car Rental Web App | *Full-Stack Web App*

[GitHub Repo](#) | [Live Demo](#)

- Built a full-stack car rental application with searchable car listings, Stripe-powered booking flow, and cookie-based JWT authentication.
- Engineered an end-to-end booking process with duplicate-prevention and populated car relations.
- Integrated an AI chatbot powered by a Llama model to provide conversational assistance and vehicle recommendations.

CourseHub — E-Learning Platform | *Nodejs, MongoDB*

[GitHub Repo](#) | [Live Demo](#)

- Designed and implemented a modular RESTful backend (Node.js, Express, Mongoose) supporting courses, modules, and lessons with efficient aggregation and population strategies.
- Implemented secure authentication with JWT (httpOnly cookies), Google OAuth (Passport), and middleware for route protection.
- Integrated Multer for file uploads with Cloudinary for scalable image storage and retrieval.

CERTIFICATIONS

Certification in Full Stack Development (MERN), Illinois Tech, US

2025

Certification in Full Stack Development (MERN), Entri Elevate, NSDC

2025

- Completed hands-on MERN stack training, building full-stack applications from UI to backend services.
- Built RESTful APIs with Node.js, Express.js, and MongoDB, including validation and error handling.
- Implemented secure authentication and authorization using JWT, protected routes, and role-based access control.

EDUCATION

B.E. Computer Science And Engineering

Dhanalakshmi Srinivasan Engineering College, Trichy

2021 – 2025

CGPA: 8.1 / 10
