SUMMARY

Front-End Developer with 2.5+ years of experience in designing and developing responsive, high-performance web applications using Angular and React. Skilled in creating intuitive user interfaces, reusable components, and implementing efficient state management with Redux. Experienced in API integration, performance optimization, and ensuring seamless cross-browser and cross-device compatibility. A strong collaborator within Agile teams, committed to writing clean, scalable, and maintainable code while delivering exceptional user experiences. Continuously expanding expertise in modern front-end technologies and best practices to drive innovation and efficiency. Additionally, proficient in developing backend APIs using Node.js.

WORK EXPERIENCE

Frontend Developer [Migration- Trainee Programmer]

July 31, 2023 – July 31, 2025

Kumaran Systems Private Limited – Cuddalore, Tamil Nadu

- Migrated legacy Oracle-based applications to modern web platforms using React (frontend) and Java (backend) for the Airspace Data Feeding project.
- Converted complex Oracle Forms into responsive, user-friendly React components, enhancing usability and maintainability.
- Assisted in developing Java RESTful APIs to replace monolithic PL/SQL logic, enabling a modular, scalable architecture.
- Developed and maintained a Ticket Support System using Angular, enhancing user experience and internal workflow efficiency.
- Led UI development of a React-based E-commerce platform, focusing on responsive design, performance optimization, and reusable components.
- Collaborated with backend teams to integrate RESTful APIs, ensuring seamless data flow.
- Worked with Git and Azure DevOps tools as part of Agile project teams, supporting collaborative development and task tracking.
- Improved page load times by optimizing React components and implementing lazy loading techniques.

Fullstack Developer [Software Developer]

Aug 7, 2025 to Present

AAHA Solutions – Puducherry

- Developed a responsive front end with React and implemented secure authentication with JWT.
- Built RESTful APIs using Node.js and designed SQL tables for users, products, cart, and orders.
- Added product filters, add-to-cart features, and an admin panel for product management.

SKILLS

- **Languages** : JavaScript, TypeScript, HTML, CSS(Bootstrap), PL/SQL.
- **Frameworks & Lib** : React, Angular, Tailwind CSS, SCSS, Oracle Forms, Node.js, Redux, Material UI, ShadCN.
- **Tools & Technologies** : Figma, Canva, Git, REST APIs, Visual Studio code, Vite, Kilo Code, Cursor Ai.
- **UI/UX Design** : Figma, Responsive Design, Cross-Browser Compatibility, Canva.
- **Soft Skills** : Problem-Solving, Adaptability, Team Collaboration, Coordination, Time Management, Multitasking, Fast Learner, Clear Communication.

EDUCATION

B.E - Computer Science and Engineering (2019-2023)

Mailam Engineering College, Tamil Nadu | 2019 – 2023

- CGPA: 8.3

CERTIFICATES

Web Development Course - Udemy (2023)

- This certificate provided foundational knowledge in both front-end and back-end web development.
- It improved my understanding of how websites are built and function, enhancing my ability to collaborate effectively with technical teams. This is especially valuable in my business development role, where I frequently coordinate with web and cloud service engineers to align solutions with client needs.

LANGUAGES

- English
- Tamil
