

Summary

Recent MCA graduate with a strong foundation in programming, web technologies, and database systems. Proficient in programming languages such as Python and Java. An adaptive and quick learner with a passion for developing innovative solutions and eager to start a career in the IT industry.

Skills

Programming

Python,java,SQL,C++

Web development

HTML,CSS,React

Database Management

MySQL,MongoDB

Debugging and Testing

Unit Testing

Education

Master of Computer Application

MG University,UC College,Aluva

Graduated:Expected 2026

Bachelor of Science in Physics

TMG college,Tirur

Graduated:2024

Academic Project – AI Baby Monitoring System

Developed an AI-based baby monitoring system that uses camera monitoring to detect baby activities. The system includes features such as facial recognition, emotion detection, anomaly detection, and alert notifications to inform parents about unusual situations, ensuring improved child safety.

Certifications

Developing Soft Skills and Personality – NPTEL – 2025

Paper Presentation

“Recent Trends in Utilization of Big Data in Economics and Policy Making” – Presented at the ICSSR National Conference, held at MES College Marampally, 2025.
