Executive Summary

Full Stack Developer (Fresher) with hands-on experience in MERN stack, REST API development using Node.js & Express, and MongoDB integration. Strong foundation in Java and Python. Passionate about building scalable and efficient web applications.

Education

B.Tech IT – GTEC, Vellore (CGPA: 8.2)	2022 – 2026
High School – GGHSS, Arni	2020 – 2022
10th – Sri Bharathi Vidhyashram, Arni	2019 – 2020

Technical Skills

Languages: Java, Python, JavaScript

Frontend: HTML, CSS, React

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Tools: Git, GitHub

Projects

Automated Attendance System

Developed a full-stack attendance management application using MERN stack with secure authentication and role-based access control. Designed REST APIs and integrated MongoDB for real-time attendance tracking and efficient data management.

Library Management System

Built a web-based CRUD application with role-based login to manage book issue, return, and search functionalities. Implemented backend logic and database integration to ensure accurate record maintenance and smooth user interaction.

Symposium Event Management Website

Created a responsive event registration platform using React with dynamic form handling and validation features. Developed reusable UI components and optimized user experience for seamless event participation.

Experience

Full Stack Web Development Intern – EDU TANTR Ventures Pvt. Ltd. – July 2025

Worked on frontend UI, backend API integration, and assisted in deployment processes.

Certifications

Full Stack Web Development Internship – EDU TANTR

Java Virtual Internship – Besant Technologies

Cloud Engineering – Google (Naan Mudhalvan)

Data Analytics – Google (Naan Mudhalvan)
