

MOHAMMAD SHAHEER

Frontend Web Developer (React.js / Next.js)

shaheercse2022@gmail.com | [+91 7561847879](tel:+917561847879) | [LinkedIn](#) | [GitHub](#) | Kerala, India

Summary

Motivated Web Developer with practical experience in JavaScript, React.js, and Next.js using TypeScript. Skilled in creating user-friendly and efficient web applications. Strong problem-solving and teamwork abilities, with experience working in fast-paced environments to deliver high-quality solutions.

Professional Skills

Frontend: JavaScript (ES6+), React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, NextUI, Context API, Redux

Backend: Node.js, Express.js

Database: MongoDB

Other: REST APIs, Responsive Design, Git, Version Control, Postman, Zoho Tools (CRM, Projects)

Work Experience

Techrish Solutions

August 2024 – Current

Solution Developer

Kochi, Kerala

- Developed and maintained web applications using **React.js** and **Next.js**, improving performance and user experience.
- Used **Server-Side Rendering (SSR)** and **Client-Side Rendering (CSR)** in Next.js to improve speed and SEO.
- Built **reusable React components** and **custom hooks** to make development faster and easier to maintain.
- Integrated REST APIs and GraphQL endpoints to enable dynamic, data-driven web features.
- Integrated **REST APIs** and **GraphQL** for dynamic, data-driven features.
- Improved site performance with **lazy loading**, **image optimization**, and **code splitting**.
- Turned **Figma designs** into responsive and pixel-perfect web pages.
- Worked with teams to build donation and fundraising management, **e-commerce websites, dashboards, and content management systems (CMS)**.
- Managed React/Next.js projects, demonstrating adaptability across multiple frameworks.

Mentorow Technologies

October 2023 – April

MERN Stack Developer Intern

Kochi, Kerala

- Assisted in developing full-stack applications using **MongoDB, Express.js, React.js, and Node.js (MERN stack)**.
- Created **responsive UI components** and integrated **RESTful APIs** for smooth data communication.
- Worked closely with senior developers to fix bugs and add new features in live projects.
- Improved web app performance and implemented **frontend best practices** using React hooks and state management.
- Gained hands-on experience in **deployment, version control (Git), and teamwork in an agile environment**.

Projects

Donation & Fundraising Management Platform

Tech Stack: Next.js(typescript), Tailwind CSS, Hero Next UI

- Designed and built a **fully customizable donation management system** enabling users to create campaigns, track donations, and manage donors.
- Integrated **payment gateways** for seamless online contributions and added **real-time transaction tracking** for transparency.
- Developed an **interactive dashboard** for admins to analyze campaign performance using data visualizations and filtering options.

- Implemented **image upload and crop functionality** with client-side previews, improving content customization experience.
- Built modular and scalable UI using **NextUI and custom components**, ensuring a consistent and adaptive design system.

Premium E-Commerce Platform for Luxury Watches

Tech Stack: Next.js(typescript), Tailwind Css

- Developed a **high-performance e-commerce web application** for luxury product sales, focusing on modern UI/UX and responsive design.
- Implemented **dynamic product listings, search and filtering**, and **real-time inventory management** for smooth shopping experience.
- Optimized **page load speed and SEO** using Next.js SSR and image optimization techniques, improving Core Web Vitals.
- Contributed to building a **reusable component architecture** and **state management** using React hooks and Context API.

CRM Dashboard

Tech Stack: React.js(typescript), Tailwind Css

- Developed a **custom CRM dashboard** for managing clients, tasks, and performance metrics.
- Implemented **interactive charts and data visualizations** to monitor key metrics(react chartjs).
- Built **reusable React components** for forms, tables, and cards to speed up development.
- Integrated **REST APIs** to fetch, update, and manage client data efficiently.
- Ensured a **responsive and user-friendly interface** for desktop and mobile users.

Reelman Production - Photography Website

Tech Stack: Node.js, Express Js, Next.js(typescript), Tailwind css

- Built a **dynamic photography website** with separate **admin and user sections** for managing and viewing photo collections.
- Developed a **custom photo upload system** using **Multer** with image preview and loading indicators.
- Designed a **responsive gallery interface** using **Next.js and Tailwind CSS**, ensuring smooth performance on all devices.
- Integrated **backend APIs** in Node.js and Express.js to handle image uploads and storage securely.
- Implemented **admin dashboard features** for managing albums, categories, and image visibility.
- Focused on **SEO optimization and fast page rendering** using Next.js SSR for better web performance.

Smart Host – Architecture Website

Tech Stack: React.js, Tailwind css

- Developed a **modern architecture portfolio website** showcasing projects and design services.
- Built **responsive and visually appealing layouts** using React.js and Tailwind CSS.
- Created **reusable UI components** for faster development and consistent styling.
- Optimized site performance and accessibility for a smooth user experience across all devices.
- Collaborated with the design team to ensure **pixel-perfect implementation** of UI/UX mockups.

Education

Visvesvaraya Technological University
Bachelor of Engineering in Computer Science

August 2019 – 2023
 Bangalore, Karnataka
