Bangalore, Karnataka

SUMMARY

Full-stack web developer with hands-on experience in building responsive, scalable web applications using **React, JavaScript, Node.js, Express, and MongoDB**. Strong foundation in problem-solving and system design, with real-world project experience including CRM dashboards, e-commerce platforms, and real estate applications. Actively seeking an entry-level **Frontend / Full-Stack Developer** role to contribute to impactful products.

EXPERIENCE

Frontend Developer

Esubhalekha

09/2025 Remote

•During my work at eSubheleka as a Front-End Developer, I was responsible for designing and developing customizable wedding invitation templates using HTML, CSS, and JavaScript. I worked on creating responsive and visually appealing designs, ensuring compatibility across different devices. This experience helped me refine my UI/UX skills and strengthen my front-end development expertise.

Full Stack development Intern

Quantinent

05/2025 - 08/2025 Remote

Company specializing in software solutions for various industries

- Developed a fully responsive customer management dashboard UI for Solar industry using React and Bootstrap CSS, replicating a real-world CRM interface
- Built a customizable sidebar menu whose sections and filters are dynamically fetched from a backend API, allowing admin-controlled updates without frontend changes
- Collaborated on real-world CRM-style workflows and layouts

Web Development Intern

Unified Mentors

03/2025 - 04/2025 Remote

An organization providing mentorship in technology and development

- Gained hands-on experience in full-stack web development
- Worked on front-end and back-end technologies to develop and optimize web applications
- Improved coding skills in HTML, CSS, JavaScript, and backend technologies

Certifications

Full Stack Development - [Simplilearn](#)

REACT.JS - [Simplilearn](#)

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering

[Gogte Institute of Technology, Belgaum](#)

08/2021 - 08/2025 Belgaum

Django

Database :

MongoDB SQL PostgreSQL

TOOLS :

GIT GITHUB GITLAB REST APIs

Programming Languages :

Python C/C++ JavaScript

PROJECTS

Bookmark Manager

A modern real-time **Bookmark Manager**

- built with Next.js and Supabase, featuring secure Google OAuth authentication via NextAuth.js.
- It utilizes SWR for near real-time data synchronization across tabs and provides a premium, responsive interface styled with Tailwind CSS.
- Tech: Nextjs, JavaScript, Supabase

Hospital Management System

A web-based application designed to manage hospital operations efficiently.

- Implemented modules for patient registration, appointment scheduling, and doctor management
- Enabled role-based access for admin, doctors, and staff to streamline workflows
- Tech: React, JavaScript, Node.js, Express, MongoDB

AI Resume Analyser

A full-featured AI Resume Analyser

- Built an AI-powered web application that analyzes resumes and provides feedback on skills, keywords, and resume quality.
- Implemented resume upload and text extraction to evaluate content against job requirements using AI.
- Integrated Gemini API to generate intelligent suggestions for improving resume structure and keyword optimization.
- Tech: React, Django REST Framework, Gemini API, Python
