PROFILE

Full-Stack MERN Developer with 1.5+ year of experience in internship, freelance, and corporate environments. Proficient in React.js, Next.js, Node.js, Express.js, and MongoDB, with hands on experience building scalable, responsive web applications and optimizing application performance.

PROFESSIONAL EXPERIENCE

Full Stack Developer | TrigAds Digital Solutions [🔗](#)

1/2026 - Present

- Developed 4+ full-stack web applications using MERN stack and Next.js
- Built scalable backend APIs for a mobile application with secure data handling
- Designed and optimized MongoDB schemas and database queries for better performance
- Built responsive user interfaces using Next.js, Tailwind CSS, and API integration

Freelance Web Developer

2025 - Present

- Deployed 2+ MERN stack applications with focus on performance and reliable delivery
- Converted Figma designs into pixel perfect, responsive UI using React.js, Next.js and Tailwind CSS
- Built scalable REST APIs with Node.js, Express.js and MongoDB, improving data handling and system efficiency

Intern | Bridgeon Solutions LLP [🔗](#)

2024 - 11/2025

- Developed 3+ MERN stack applications during internship through self driven learning and project based development
- Built responsive UI with React.js, Next.js and Tailwind CSS, ensuring cross device compatibility
- Developed backend APIs using Node.js, Express.js and MongoDB for structured data handling
- Enhanced full stack development skills through hands on practice and real world problem solving

SKILLS

Frontend Development: JavaScript, React.js, Next.js, Redux, Tailwind CSS, Bootstrap

Backend Development: Node.js, Express.js, RESTful APIs, JWT, OAuth

Database Management: MongoDB, Mongoose, PostgreSQL

Tools & Platforms: GitHub, Postman, Vercel, Render, Razorpay, Stripe

Methodologies & Soft Skills: Agile Methodologies, Project Management, Communication, Team Collaboration

Projects

Hospital Management System | Clinibook

- Enhanced features in an existing MERN based healthcare application by adding new functional modules, improving system usability
- Implemented appointment scheduling system for doctors, streamlining patient booking process
- Developed lab and pharmacy features for uploading and managing patient reports, improving data accessibility
- Improved overall workflow through structured feature updates and better user interaction

Learning Platform | Ancraze

- Developed backend using Node.js, Express, and MongoDB for course access and user management
- Implemented course enrollment system with manual payment verification and onboarding flow
- Built admin and trainer modules for managing students and assigning tasks
- Designed task workflow with manual WhatsApp based updates for communication and progress tracking

E-Commerce Platform | MERN Stack

- Developed full stack e-commerce platform using Next.js (API routes) and MongoDB
- Implemented JWT based authentication and role based authorization
- Built COD checkout flow with order tracking
- Designed responsive UI and admin dashboard with CRUD operations
