

Muhammed Shamil K P

Full-Stack Developer

✉ muhammedshamil008@gmail.com  github  linkedin  Portfolio  Calicut, Kerala

Summary

Full-stack developer experienced in building real-world dashboards, event platforms, and admin systems using React, Node.js, and Laravel. Strong in API design, performance optimization, and scalable application development.

Experience

Frontend Developer (Intern), Destinify (Remote) 12/2023 – 2025 Remote

- Built vendor, admin, and public e-commerce panels using Vue 3, Nuxt 3, and Tailwind CSS
- Developed reusable component systems for dashboards and landing pages
- Integrated REST APIs with optimized rendering and state management
- Implemented loading states, error handling, and responsive UI

Freelance Full-Stack Developer, Freelance 2023 – Present

- Delivered 8+ projects including admin dashboards and event management systems
- Built systems with authentication, role-based access control, and structured data workflows
- Developed full-stack applications using React, Node.js, Laravel, and Firebase/Supabase

LEADERSHIP & COMMUNITY

2023 – 2026

CTO — IEDC EMEA College (2023 – 2024)

- Led development of internal platforms and coordinated technical teams
- Mentored students and conducted technical sessions

Campus Lead — TinkerHub EMEA (2023 – 2024)

- Led community initiatives through technical sessions and peer learning
- Organized workshops on development tools and projects

Convener — Connect EMEA (2025 – 2026)

- Organized workshops and hackathons, handling coordination and execution
- Conducted sessions on Git & GitHub and full-stack development

Projects

C-Zone Management System, React, Node.js, MongoDB, shadcn/ui

- GitHub: github.com/connectemea/gloryboard-admin-panel  | github.com/connectemea/kalama 
- Built a full-scale event management system handling registrations, results, and admin workflows
- Implemented hall ticket generation, live score updates, and real-time result publishing with TV display
- Used across 100+ colleges; replaced manual processes with a centralized digital platform

EMEAHub, React + Laravel + MySQL | emeahub.vercel.app

- GitHub: github.com/muhammedshamil8/EmeaHub 
- Built a platform for managing and accessing academic resources with role-based access
- Implemented content upload, verification workflows, and search functionality
- Developed API-integrated UI for structured content management

Education

EMEA College of Arts & Science, BSc Computer Science

2023 – 2026

Achievements

- Blockchain Track Winner — Hackathon, Amal Jyothi Engineering College
- Two-Time Web Design Winner — Devagiri College (2023 & 2024)
- Hackathon Winner (IQAC Website) — EMEA College

Skills

Frontend: React, Next.js, Vue 3, Nuxt 3 | **Styling/UI:** Tailwind CSS, Ant Design, shadcn/ui

Backend: Node.js (Express), Laravel | **Tools:** Git, Postman

Database: MongoDB, MySQL | **Services:** Firebase, Supabase
