Python Full Stack Developer with hands-on internship experience in building responsive, scalable web applications using **Python, Django, React.js, and REST APIs**. Completed **Bachelor of Computer Applications (BCA)** from the University of Calicut. Strong foundation in frontend and backend development, database management, and version control. Quick learner with strong problem-solving skills, seeking an entry-level Frontend/Backend Developer role.

WORK EXPERIENCE

Python Full Stack Developer Intern

June 2025 – Present

Maitexa Technologies Pvt. Ltd., Calicut

- Developed responsive web interfaces using **HTML, CSS, JavaScript, and React.js**.
- Implemented backend functionality using **Python and Django**.
- Designed and integrated **RESTful APIs**.
- Used **Git** and **GitHub** for version control and team **collaboration**.
- Deployed frontend applications on **Vercel** and backend services on **Render**.

PROJECTS

PulsePoint – Blood Donation Management System (Django)

- Developed a role-based Django web application to manage blood donors, patients and hospitals.
- Implemented secure authentication, user profile management, and data visualization for analytics.

[GitHub](#) | [Live Demo](#)

Employee Management System (Django)

- Built a Django-based system to manage employee records, leave requests, and admin approvals.
- Implemented role-based authentication with secure CRUD operations for admins and employees.

[GitHub](#) | [Live Demo](#)

GlamNest – E-commerce Shopping Website (React.js)

- Built a responsive e-commerce application with product listing, cart, and checkout features.
- Utilized React Hooks, Context API, lazy loading, and error boundaries for efficient state management.

[GitHub](#) | [Live Demo](#)

Course Management System (Collaborative Project)

- Developed a course management platform with course listings, categories, and instructor profiles.
- Collaborated in a 3-member team using GitHub and built reusable, interactive UI components with JavaScript.
