## SUMMARY

---

Dedicated ASP.NET Core Developer with 1+ years of experience in developing scalable web applications and providing technical support. Currently specializing in multi-tenant e-commerce backend development with expertise in C#, ASP.NET Core, Entity Framework, and RESTful API design. Proven track record in delivering robust solutions and optimizing application performance.

## EXPERIENCE

---

**Asp.Net Core Developer, IKEY SOFTWARE SOLUTIONS LLP, Calicut, India** Jan 2025 — Present

Developing backend architecture for multi-tenant e-commerce web application using ASP.NET Core

- Creating and maintaining RESTful API endpoints for seamless frontend-backend integration
- Designing and implementing entities, DTOs, services, and interfaces following clean architecture principles
- Configuring dependency injection and service layer configurations for optimal Performance
- Collaborating with development team to ensure scalable and maintainable code structure
- Optimized API performance using asynchronous programming, caching and pagination.
- Designed and implemented tenant-aware APIs, authentication, and authorization using JWT, OAuth, and Identity Server.

**ASP.Net Full Stack Developer, Luminar Technolab, Kochi, India** Oct 2024 — Jan 2025

Developed and maintained web applications using ASP.NET framework and C#

- Integrated SQL Server databases with web applications using Entity Framework
- Implemented RESTful APIs for data communication between frontend and backend
- Collaborated with development team on code optimization and performance enhancement
- Ensured clean, scalable, and maintainable code following industry best practices

## EDUCATION

---

**MES College Of Engineering | Kuttippuram ('A' NAAC ACCREDITED), Kuttippuram, India** - Master Of Computer Application, Computer Application - (GPA: 7.02) Oct 2021 — Jun 2023

**Grace Valley Arts and Science College, Maravattam, India** - Bachelor of Computer Application, Computer Application - (GPA: 6.50) Aug 2017 — Mar 2020

## PROJECTS

---

**E-commerce Online Shopping, Luminar Technolab, Kochi, India** Dec 2024 — Dec 2024

- Technologies: ASP.NET Core, C#, SQL Server, Entity Framework
- Developed comprehensive online shopping e-commerce platform with user-friendly interface
- Optimized database queries and implemented caching for improved performance

**Online Craft and Fashion Store, MES College of Engineering, [Link](#), Kuttippuram, India** Oct 2022 — Dec 2022

- This Project designing web pages using HTML & CSS
- Usage of responsive templates
- Designing of full stack Django application, and management of Database using SQLite3.

## SKILLS

---

**Programming Languages** : C#, Java Scripting Languages, HTML + HTML5, CSS3, SQL  
**Frameworks** : ASP.NET Core, ASP.NET Web API, ASP.NET MVC, Entity Framework Core, ADO.NET  
**Technologies** : RESTful API, Bootstrap, jQuery, JSON  
**Databases** : SQL Server  
**Development Tools** : Visual Styling, SQL Server Management Studio  
**Version Control** : Git  
**Architectures** : MVC Pattern, Repository Pattern, Multi-tenant, Clean Architecture  
**Third-Party API Integrations** : Stripe Payment Gateway (Payments, Webhooks), Firebase OTP Authentication, Email Authentication (SMTP / Email Services), WhatsApp Business API Integration  
**Other** : DTO Mapping, Dependency Injection, API Development
