PROFILE

Full Stack Developer with hands-on experience in ERP-style systems, RESTful APIs, and full-stack web development using React.js, Django, and MySQL. Skilled in system design, database management, and API integrations, with exposure to team collaboration and mentoring. Expertise in AI/ChatGPT integrations for enterprise automation. Dubai-based and available to join immediately.

CORE COMPETENCIES

Technical Skills

- Programming Languages: JavaScript, SQL
- Frameworks & Libraries: React.js, Angular, Next.js, Bootstrap, Webflow, Node.js, Express.js, .NET(familiarity)
- Web Technologies: HTML5, CSS3, REST APIs, Authentication/Authorization
- Databases: MySQL, MongoDB, MariaDB
- Tools & Platforms: Git, GitHub, VS Code, Agile workflows, Deployment basics

Soft Skills

- Ability to work independently
- Communication and interpersonal skills
- Time management
- Continuous learning and self improvement
- Team leadership
- Adaptability and flexibility
- Analytical and problem-solving skills

PROFESSIONAL EXPERIENCE

Full Stack Developer, *ALTOS Technologies*

06/2024 – 08/2025 | Kerala, India

- Developed and deployed full-stack web applications using React.js, Django, Node.js, and SQL databases
- Implemented role-based access control (RBAC) systems for multi-user applications and admin dashboards
- Improved application performance by 30% through code optimization, caching strategies, and database query optimization
- Designed and integrated secure RESTful APIs with authentication, authorization, and JWT token-based security
- Collaborated in Agile sprints with version control (Git/GitHub) and participated in code reviews

MERN Stack Developer Intern, *INIT Solutions*

09/2023 – 12/2023 | Kerala, India

- Contributed to full-stack application development using React.js, Node.js, Express.js, and MongoDB.
- Implemented modern JavaScript (ESG+), React Hooks (useState, useEffect, useContext), and component lifecycle management
- Integrated third-party APIs, payment gateways, and external services for enhanced functionality
- Participated in system architecture discussions and applied best practices in debugging, testing, and documentation.
- Collaborated in Agile Scrum teams, ensuring timely delivery of features and smooth integration of modules.

EDUCATION

Bachelor of Science in Computer Science, *University of Calicut*

2020 – 2023 | Kerala, India

PROJECTS

Institution Management System (ERP-style academic platform),

React.js, Node.js, SQL, HTML, CSS, Bootstrap, JavaScript

- Built a multi-role system with dashboards for Admins, Teachers, and Students.
- Implemented course management, enrollment, attendance, grading, and announcements.
- Designed secure authentication and role-based access control (RBAC).

Hospital Management System – Billing Module, React.js, Django, SQL Database, PDF Generation

- Developed automated patient billing system with invoice generation, payment processing, and receipt management
- Implemented comprehensive patient records management with billing history, outstanding payments, and revenue tracking
- Built revenue reports dashboard with analytics, daily/monthly summaries, and financial insights for hospital administration

E-Commerce Web Application, React.js, Node.js, Express.js, MongoDB, Stripe API

- Developed full-featured e-commerce platform with product catalog, shopping cart, checkout system, and order management
- Implemented secure user authentication, authorization, and JWT token-based session management
- Built RESTful APIs for product CRUD operations, inventory management, order processing, and payment integration
