### SUMMARY

Full Stack Developer with skills in Frontend, Backend integration, and Mobile development fundamentals. Experienced in building responsive, AI-powered, and scalable web applications with secure API integration and modern UI practices.

### SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), TypeScript, React.js, Next.js, Three.js

Tailwind CSS, Bootstrap, GSAP

Backend & APIs: Node.js, Express.js, REST APIs, Axios, Fetch,

Firebase, MongoDB (Integration)

Mobile: React Native, Expo

Tools: Git, GitHub, Vercel, Netlify

### PROJECTS

#### [AI Chatbot \(React\)](#)

- Integrated AI API using secure environment variables
- Managed dynamic state handling and deployed on Vercel

#### [Anime Web App - Personal Project](#)

Built a web app that fetches real-time anime data via API for browsing and exploration.

Enhanced UI with **GSAP animations** for smooth, interactive transitions and dynamic content display.

#### [Food Ordering Website](#)

- Developed dynamic menu filtering and cart functionality
- Integrated email-based order confirmation system

#### [GSAP Animation Project \(Iphone Clone\)](#)

- Implemented scroll-triggered animations
- Optimized performance for smooth UI experience

### EDUCATION

**Full Stack Development Course** — Dice Academy

**Bachelor of Commerce** - Delhi University
