SUMMARY

Motivated Full Stack Python Developer skilled in **Python, Django**, and **REST APIs**. Proficient in **MySQL, SQL**, and data analysis using **Pandas, NumPy, Matplotlib**. Experienced in HTML, CSS, Bootstrap, and basic JavaScript for web development. Familiar with tools like VS Code, PyCharm, Jupyter, GitHub, and MS Office.

EDUCATION

B.Tech, Belagavi University Jun2021- May2025
Guru Nanak Dev Engineering College
Bidar CGPA : 6.0

SKILLS

- **Programming:** Python
- **FrameWorks:** Django, Rest API's
- **Web Development:** HTML, CSS, Bootstrap
- **Database:** MySQL, SQL
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib.
- **Tools:** Git, Excel, MS Office.

PROJECTS

1. Registration and login system [Link](#)

- User Registration (Name, Email, Password, etc.)
- Secure password storage (Django uses PBKDF2 hashing by default)
- User Login & Logout For Profile Page (only accessible after login)
- Session management
- MySQL as the database.

2. EDA Project using Pandas Library (Python & Pandas) [Link](#)

- Analysed large datasets to identify missing values, correlations, and data patterns using Pandas and NumPy.
- Performed data cleaning, visualization, and summary statistics.

3. Employee Data Management with Python and MySQL (Python & MySQL) [Link](#)

- Created a Python application to add and manage employee records in a MySQL database.
- Implemented basic CRUD operations and terminal-based input system.

CERTIFICATIONS

- Python Full Stack – Naresh I Technologies May 2025 - Nov 2025
- 100 Days of Python Bootcamp – Udemy
