Full Stack Developer | MERN Stack | JavaScript | Node.js | React.js | AWS | MySQL

## PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience in developing, optimizing, and deploying scalable web applications using the MERN stack. Strong expertise in React.js, Node.js, Express.js, and MySQL with hands-on experience in RESTful APIs, JWT authentication, SMTP email integration, and AWS EC2 deployment. Adept at building secure, high-performance, and user-centric applications through clean code and optimized architecture.

## TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), React.js, Bootstrap

Backend: Node.js, Express.js, SMTP (Email Integration)

Database: MySQL

Cloud & Hosting: AWS EC2, Hostinger

Tools: Git, GitHub, VS Code, Postman

Soft Skills: Problem Solving, Collaboration, Time Management, Analytical Thinking

## EXPERIENCE

### Full Stack Developer – Jainya Tele Enterprises Pvt. Ltd.

Jul 2024 – Present

- Executed and maintained MERN applications with high performance and security.
- Built RESTful APIs using Node.js and Express.js, improving response time by 30%.
- Deployed JWT authentication and multi-role access control.
- Engineered reusable React.js components using Bootstrap, reducing UI development time by 25%.

## PROJECTS

### Laundry Management Web Application

[Link](#)

- Administered a centralized control panel for users, employees, shops, and system settings.
- Facilitated flexible data filters allowing system users to analyze transactions by weekly, monthly, yearly, and custom date ranges.
- Issued employee credentials and tracked advance payments with detailed financial records.
- Monitored revenue and expenses per shop across multiple locations with real-time insights.
- Produced employee performance analytics with metrics and graphical reports outlined precisely.
- Implemented salary management with clearly detailed increment rules based on preset time periods.
- Supplied transaction exports in PDF and CSV formats for reporting and auditing.

### Travel CRM Management System

[Link](#)

- Architected a multi-role CRM with Admin, Staff, and Agent interfaces for airline ticket operations.
- Authorized administrators to oversee ticket sales collections, inventory levels, and live stock status.
- Introduced bulk stock uploads with automated calculation of total, sold, and remaining tickets.
- Executed ticket management with sales and availability tracking per airline in a detailed manner.
- Delivered segmented and airline-level data exports with CSV download functionality.

### E-Commerce Web Application

[Link](#)

- Launched a modern e-commerce platform with administrative and user dashboards, blogs, and theme switching.
- Distributed SMTP-based email notifications to alert users about new product launches and announcements.

## EDUCATION

### Master of Computer Applications (MCA)

Dr. A.P.J. Abdul Kalam Technical University, Lucknow (UP)

2021 – 2023

CGPA: 7.98
