Dedicated and self-taught MERN stack developer who can adapt to any technology rapidly making myself flexible upon any tech stack. A passionate, diligent person who wants to learn continuously. An optimized solution seeker who worked on multiple projects with hard work and research.

Willing to relocate: Anywhere

Work Experience

Software Developer

Catalizo Digital Solutions

June 2024 to October 2025

Developed responsive front-end for a food delivery website, ensuring seamless user experience across desktop and mobile platforms. Implemented key pages including homepage, menu, cart, profile, payment, and admin panel using React.js. Executed entire front-end development independently, demonstrating strong self-management and project completion skills. Integrated responsive design principles to create a mobile-friendly version of the website, ensuring accessibility across various devices.

Mern-stack Developer

Onstara Private Limited

November 2022 to June 2024

Developed a comprehensive e-commerce website, handling both frontend and backend development. Backend: Built and managed the server-side application using Node.js and Express.js, implementing key features like product management, user authentication, and order processing. Database: Designed and optimized a MongoDB database for efficient storage and retrieval of product, user, and order data. Frontend: Developed a responsive and user-friendly interface using React.js, enhancing customer engagement and usability. API Integration: Integrated third-party services such as the BillDesk API for secure payment processing and the Shiprocket API for automated shipping and order fulfillment.

Education

Higher Secondary

G.H.S.S Balanthode

January 2016 to Present

85%

Applied Electronics and Instrumentation (BTECH)

College of Engineering Vadakara-India

January 2016 to January 2020

Bachelor of Engineering
