OBJECTIVE

Enthusiastic Computer Engineering graduate eager to apply full-stack development and software engineering skills to contribute to real-world projects. Passionate about learning new technologies, solving problems, and delivering impactful solutions.

SKILLS

- **Programming Languages:** C++, Core Java (OOPs), JavaScript
- **Frontend:** HTML5, CSS3, Tailwind CSS, React.js
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** SQL, MongoDB
- **Tools & Version Control:** Git, GitHub, Postman
- **Soft Skills:** Problem Solving, Critical Thinking, Teamwork, Communication

EDUCATION

Sinhgad Institute of Technology, Lonavala

Bachelor Of Engineering: Computer Engineering

CGPA: 8.06/10

2025

Late Dr. A. G. Thakare Junior College, Baglan

Higher Secondary Education

Percent: 89.83%

2021

SKD INTERNATIONAL SCHOOL

Central Board of Secondary Education

Percent: 73.80%

2019

Professional Experience

Company Name: Octanet Services Pvt. Ltd.

Jan 2024 – Feb 2024

- Developed a **responsive landing page** for a gym website with clean UI design and engaging user experience using HTML, CSS, and JavaScript.
- Built a fully functional task management web application to manage tasks dynamically with features like **adding, editing, and deleting** tasks.

PROJECT WORK

Project Name: AI Powered Blog Application

Link: blog-application-lzce.onrender.com

Key Skills: Node.js, Express.js, MongoDB, EJS, RESTful API, Groq AI API, Prompt Engineering

- Built a **full-stack** blogging platform with **JWT authentication**, **Multer** image uploads, comment system, and full **CRUD** with ownership-validated edit/delete operations.
- Integrated **Groq AI API (Llama 3.3 70B)** to build an **AI Tone Converter** using **zero-shot prompt engineering**, enabling users to rewrite blog content across 6 styles — Professional, Casual, Social, Polite, Emojify, and Original.

Project Name: E-Commerce Website

Link: github.com/githubrishi321/ecommerce

Key Skills: HTML5, CSS3, JavaScript, Tailwind CSS, React, AWS Elastic beanstalk

- Built a complete **React** frontend for an e-commerce app with product listing grid, add-to-cart, **centralized state management**, and multi-page checkout with **dynamic delivery date calculation** and live payment summary.
- Integrated the frontend with backend **REST APIs** using **Axios**, developed order history & tracking pages, and **deployed** the full application on **AWS Elastic Beanstalk** while managing the production environment.

Project Name: URL-Shortener

Link: url-shortener-qk0w.onrender.com

Key Skills: Node.js, Express.js, MongoDB, Session Auth, Bootstrap, express-rate-limit

- Built a full-stack URL shortener with user authentication (**bcrypt hashing + session cookies**), **custom aliases**, **link expiration** (1hr–1month), and **CRUD operations**.
- Implemented real-time **click analytics**, **QR code** generation, **social sharing modal**, and **link preview** feature.
- Added **multi-layered rate limiting** and ownership validation to prevent abuse while maintaining a clean, responsive Bootstrap UI with card-based dashboard.

CERTIFICATION

AWS Cloud Practitioner Essentials – Amazon

Learned the basics of cloud computing and got knowledge about services like EC2, S3, and Lambda.

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

Gained foundational knowledge of AI concepts including ML, OpenCV, and NLP.

Achievements

Coding: Solved 100+ coding problems (75+ on [LeetCode](#)), enhancing problem-solving and DSA skills.

GitHub Achievement (YOLO): Actively contributed on GitHub, unlocking “You want it? You merge it” badge for 100% merge.
