Summary

Full Stack Developer specializing in **Node.js backend development** with experience in MERN Stack, Next.js, and scalable API design. Completed **6 months of paid internship experience** building production applications and real-time systems. Built multiple full-stack platforms and **won 4 Hackathons (1st Place)**. Passionate about backend engineering and scalable systems.

Technical Skills

Backend: Node.js, Express.js, REST APIs, WebSockets, Next.js API Routes

Frontend: React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), Redux

Databases: MongoDB, Redis

DevOps: Docker, Nginx, AWS EC2

Languages: C++, JavaScript, TypeScript, Go (Learning), Python (Learning)

Tools: Git, GitHub, Vercel, Railway, Render

Experience

Full Stack Developer

Oct 2025 – Present

SafarWanderlust (Remote)

- Building CRM-based applications using **Node.js, React, and Next.js**.
- Designed scalable **REST APIs using Node.js and Express**.
- Dockerized backend services and optimized deployments.
- Developed dashboard features for internal business tools.

Full Stack Developer Intern

May 2025 – July 2025

Sitegalleria Pvt Ltd (Remote)

- Integrated **Slack, Discord, and Telegram APIs** for real-time messaging.
- Built a full-stack dashboard using **Next.js, Node.js, MongoDB**.
- Developed chatbot workflow automation builder.
- Collaborated with backend and UI teams to optimize APIs.

Projects

ChatMe – Real Time Chat Platform

Tech: Next.js, Node.js, WebSockets, MongoDB

- Built real-time messaging using **WebSockets and Node.js**.
- Implemented login authentication and user online/offline status.
- Developed Snapchat-style friend request system.
- Enabled persistent chat storage using MongoDB.

Campus Confess – Anonymous Platform

Tech: Next.js, Node.js, MongoDB, Redis, Nginx, AWS EC2

- Built anonymous confession platform for college communities.
- Implemented **Redis caching** and Node.js clustering.
- Used **Nginx load balancing** for high concurrency.
- Deployed production system on AWS EC2.

Army Cert Portal (AI Integrated)

Tech: Next.js, Node.js, MongoDB, Gemini API

- Built cyber reporting portal with role-based authentication.
- Developed admin dashboard to monitor security reports.
- Integrated AI chatbot **Garud AI**.

Achievements

- **4× Hackathon Winner (1st Place)** including SIH Internal Round.
- Completed **6 months paid internship experience** as a Full Stack Developer.

Education

Jaypee University of Information Technology

B.Tech in Computer Science and Engineering

2024 – 2028

Solan, Himachal Pradesh
