ABOUT ME

Self-motivated MERN Stack Developer and Software Tester skilled in building and testing full-stack web applications using React.js, Node.js, Express, and MongoDB. Experienced in writing unit and integration tests to ensure robust and high-quality software delivery. Solved 350+ DSA problems on GeeksforGeeks (<https://www.geeksforgeeks.org/user/adhikarisfu1o/>). Passionate about delivering efficient, reliable, and scalable solutions through clean code and thorough testing.

SKILLS

Technical Competencies:

Languages – C, C++, Java, Python, JavaScript, TypeScript

Front End Development – HTML5, CSS3, React.js, React Redux, Tailwind CSS, Material UI

Backend Development – Node.js, Express.js, Next.js, REST API, JWT, Authentication, Authorization

Database – SQL, MySQL, MongoDB

Design & Collaboration Tools – Figma, Canva, Adobe XD, Postman, Git, GitHub, VS Code, Render, Netlify, Vercel, Jira

Testing & QA – Postman (API Testing), Selenium (Basic), SDLC, STLC, Manual Testing Concepts, Test Case Design

Computer Science Concepts – Data Structures & Algorithms, OOPs, Computer Networks, DBMS, Operating System

Behavioral Skills: Leadership, Team Player, Adaptability, Problem-Solving, Communication, Time Management, Analytical Thinking, Creativity, Learning

EDUCATION

B.Tech in Computer Science and Engineering

Percentage: 78.5%

Uttarakhand Technical University

(July 2021 - June 2025)

Higher Secondary Education (Class XII)

Percentage: 98%

Little Angel School Kichha , U S Nagar Uttarakhand

(May 2020 - March 2021)

Secondary Education (Class X)

Percentage: 95.8%

Little Angel School Kichha , U S Nagar Uttarakhand

(June 2018 - March 2019)

WORK EXPERIENCE

Software Engineer Intern: NOTEG TECHNOLOGIES PRIVATE LIMITED - (Sector – 62, Noida)

(December 2025 – Present)

- Developed and enhanced the **Product Section** of the Sampark web application using **React.js** within a **MERN stack (MongoDB, Express.js, React.js, Node.js)** architecture, integrating REST APIs for dynamic data rendering.
- Designed and completed the **Admin Documentation Module**, ensuring structured content flow and improving system clarity for users.
- Built a **Team Management Web Application** with CRUD functionality and role-based access control during onboarding, applying full-stack development principles.

Web Developer Intern: Digital Reach - (Dehradun)

(June 2024 – August 2024)

- Assisting in developing and maintaining client websites and digital solutions. Learned practical full-stack development skills and collaborated on real-world web projects.

PROJECTS

- Job Portal (2025):** Full-stack job portal built with React.js, Tailwind CSS, Node.js, Express.js, and MongoDB featuring role-based authentication, job posting, and application management. (https://github.com/Sooraj-Adhikari/Job_Portal)
- Hotel Haven (2024):** MERN-based hotel booking app with authentication, encryption, and optimized MongoDB for 10K+ bookings, boosting speed by 40%. (https://github.com/Sooraj-Adhikari/Hotel_Management_App)
- Heritage Pass (2023):** Built a MERN-based ticket booking platform integrating secure Stripe payments and real-time availability tracking for a seamless visitor experience.
