SUMMARY

Full Stack Developer specializing in MERN stack (MongoDB, Express.js, React.js, Node.js) with hands-on experience building scalable, secure, and responsive web applications. Strong expertise in RESTful API development, authentication (JWT), state management (Redux, Context API), database design, and performance optimization. Experienced in deploying production-ready applications and collaborating in Agile team environments. Passionate about writing clean, maintainable code and continuously improving system architecture.

WORK EXPERIENCE

MERN Stack Intern – Smart Global Domestic Workers Services Center Mar 2025 Aug 2025
LLC, Dubai (Remote)

- Worked on frontend and backend integration tasks.
- Contributed to feature development and resolving bugs
- Supported documentation and deployment activities
- Collaborated with cross-functional teams in remote Agile environment

Apr 2024 – Mar 2025

Software trainee (MERN Stack) – CYRA Learnings

- Building production-ready MERN applications with reusable components.
- Improving backend performance and responsiveness.
- Collaborating in team environments and contributing to code review

PROJECTS

GROVIYA – MERN E-Commerce Platform

- Built a scalable full-stack e-commerce platform using MERN stack
- Implemented JWT authentication with role-based access (User/Admin)
- Developed product management, cart, order, and checkout modules
- Integrated Razorpay payment gateway for secure transactions
- Designed modular RESTful APIs with Express.js
- Built responsive UI using React.js, TypeScript, Tailwind CSS

Tech Stack: React.js, TypeScript, Redux Toolkit, Node.js, Express.js, MongoDB Atlas, Socket.io, Razorpay

DILS TRADES – MERN E-Commerce Application

- Developed full-featured e-commerce platform with product, cart, and checkout management
- Designed scalable backend APIs and responsive UI components.
- Implemented JWT authentication and payment gateway integration.
- Built responsive UI components

TECHNICAL SKILL

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Next.js, Redux, Context API
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, MySQL, DBMS
- **DevOps & Tools:** Docker, Git, GitHub
- **Testing :** Jest

EDUCATION

Bachelor of Science in Computer Science

(2021 – 2023)

- Calicut University
