

SRISHTI RAJ

Contact No: +91-7079260611
Email:rajshrishti20@gmail.com
Address: Bihar, India

SKILLS

LANGUAGES:

C++, Python, JavaScript, HTML/CSS

FRAMEWORKS:

Flask, Bootstrap, ERPNext

DATABASES:

MySQL, SQLAlchemy, Xampp Server

TOOLS & PLATFORMS :

GitHub, VS Code, Wordpress, Canva

LIBRARIES:

Pandas, Numpy, Frappe

CERTIFICATION

- PGP Fullstack Certification Program in Python and Django from LetsUpgrade.
- Python Basics,Data visualization in Python ,Introduction of Git and Github etc. from Coursera.

Education

2020-2024

B.TECH. IN CSE
CHANDIGARH UNIVERSITY
CGPA : 8.07

2019-2020

INTERMEDIATE
SRI CHAITANYA TECHNO SCHOOL
Percentage: 85.2%

SUMMARY

SDE with hands-on experience in full-stack development using the Frappe and ERPNext. Proven track record in building complex modules like Asset Management and APIs to solve business challenges. Adept at leveraging JavaScript, Python, and modern web technologies to deliver scalable, data-driven solutions and interactive dashboards.

EXPERIENCE

Searchosis Marketing Pvt.Ltd. (08/2024-Present)

SDE

- Developed and customized modules within the ERPNext using the Frappe framework, Python, and JavaScript.
- Engineered an Asset Management system to automate lifecycle tracking, reducing manual audit time and improving resource allocation accuracy.
- Architected an Employee Tracking system featuring real-time data visualization and attendance reporting.
- Designed and implemented Dashboard using HTML, CSS, and JS to transform raw feedback into actionable business insights.
- Built and integrated RESTful APIs to facilitate seamless data exchange between the ERP and third-party applications.

PROJECT

Brilliant Zone Institute(05/2021)

Full-Stack

- This project showcases a fully functional coaching website built by using Python, Flask, Flask-Mail, SQL, and Bootstrap, and deployed on Heroku.
- Flask-Mail enables sending emails for notifications, reminders, and other communication purposes.
- Bootstrap provides a visually appealing and responsive front-end interface. CRUD operations are available.
- Xampp server is used to connect the website to a MySQL database for storing blog post data and user information.

ACHIEVEMENTS

- Achieved the highest rank of 5 stars in C++ and Python on HackerRank, demonstrating strong coding abilities and problem-solving skills
- Successfully solved over 100+ programming problems on LeetCode and GFG for continuous learning and improvement
- Secured 23rd state rank in Hindustan Olympiad in 2017, reflecting excellence in competitive programming
