

Swathi Muneeswaran

Full-stack developer skilled in JavaScript, React, Node.js and MongoDB. Currently working as a Software Developer at Blueto Technologies, building scalable, responsive applications. Strong problem-solving skills, fast learner, and passionate about delivering clean, user-friendly solutions.

Experience

Blueto Technologies – Software Developer

January 2025 –Present

- Developing front-end components using ReactJS and state management.
- Implementing REST APIs using Node.js and MongoDB.
- Collaborating in Agile environment for feature enhancements and bug fixes.
- Working on responsive UI, reusable components, and performance optimization.

Karmadev – Frontend Developer (Intern/Freelancer)

- Worked on building modern UI components and improving user experience.

Projects

Smart School ERP System

- Built REST APIs for student, attendance, and fee management
- Designed relational database schema with proper normalization
- Integrated payment gateway with webhook handling and signature verification
- Implemented idempotency and reconciliation to handle payment edge cases

Zaapay (Fintech Wallet Platform)

- Contributed to frontend development of wallet features (Add Money, Withdraw, KYC)
- Integrated APIs and handled request/response flows
- Fixed UI bugs and improved user experience

WebChat AI (RAG-based Q&A System)

- Built a web app to query website content using RAG with embeddings and vector search
- Used LLM to generate context-aware answers from retrieved data

Education

- B.E (ECE) – Kongu Engineering College, Anna University (2019–2023) – CGPA: 7.8
- HSC – Vidya Vikashini MHSS (2018–2019) – 73%
- SSLC – Vidya Vikashini MHSS (2016–2017) – 96%
