PROFILE

Dedicated and highly motivated recent graduate seeking a challenging entry-level position in Web Development where I can apply my academic knowledge, interpersonal skills, and passion for Development. Eager to contribute to a dynamic team and grow both personally and professionally.

EXPERIENCE

Rakolkata software services

Full Stack Web Developer (Feb 2025 - Present)

- Took a three-month medical leave during employment and successfully resumed full-time responsibilities.
- Developed and integrated RESTful APIs using Node.js, NestJS, and MySQL across multiple projects.
- Built scalable and SEO-friendly web applications using Next.js and React, focusing on performance and user experience.
- Developed e-commerce features using Shopify and Hydrogen framework, including storefront customization and API integrations.
- Created responsive web interfaces and mobile applications using React, React Native, and Laravel.
- Collaborated on full-stack functionalities such as authentication, data handling, and third-party service integrations.
- Adapted quickly to diverse tech stacks across projects, ensuring timely delivery and cross-platform compatibility.

PROJECTS

Social Media Website

Description: A dynamic social media platform where users can create and share posts, comment, like/unlike content, and chat in real-time. Built with ReactJS and Chakra UI for a sleek interface, and powered by Node.js, Express.js, MongoDB, and Socket.io for seamless performance. Secure user authentication is handled with JWT.
