SUMMARY

I am a passionate Python Full-Stack Developer with a strong foundation in building dynamic, user-friendly web applications using Django, Python, HTML, CSS, Bootstrap and modern front-end frameworks. I enjoy solving real-world problems through clean code, optimized logic, and responsive design. I am actively seeking an opportunity to begin my career as a Full-Stack Developer, where I can contribute my skills, grow professionally, and work on impactful projects

TECHNICAL SKILLS

Technical Languages: Python, JavaScript

Backend: Django, Django REST Framework, RESTful APIs, JWT Authentication

Frontend: HTML5, CSS3, Bootstrap 5, React

Database: SQLite, MySQL

Tools: PyCharm, VS Code, Git, GitHub, Postman

Concepts: CRUD Operations, Authentication and Authorization, API Integration, MVT Architecture

Soft Skills: Problem-Solving, Teamwork and Collaboration, Adaptability

EXPERIENCE

Python Full Stack Intern, Luminar Technolab – Kakkanad, Kochi

June 2025 – Jan-2026

- Completed hands-on training and real-time project work in Python, Django, Django REST Framework, HTML, CSS, JavaScript, Bootstrap, and MySQL, SQLite.
- Built CRUD functionalities, User authentication modules, and REST API integrations.
- Worked with MySQL and SQLite databases for efficient data storage and management.
- Developed and maintained responsive web applications with clean UI and optimized backend logic.
- Debugged issues and improved application performance.
- Actively participated in the web development lifecycle, including requirement analysis, development, testing, and implementation.

PROJECTS

E-Commerce Web Application

github.com/E-Commerce

- Developed a complete E-commerce web application using the Django framework following MVT architecture.
- Implemented user modules such as registration, login, product listing, product details, cart and checkout.
- Integrated Razorpay Payment Gateway to enable secure online payments, including order creation, payment verification, and added cash on delivery (COD) as an additional payment option.
- Tools Used: Python | Django | HTML | CSS | Bootstrap | SQLite | Razorpay | GitHub.

Library Management System

- Developed a full-stack Library Management System using Django REST Framework for backend APIs and React.js for frontend UI.
- Built RESTful APIs and Implemented CRUD functionality for Libraries.
- Implemented JWT Authentication for secure user login and authorization.
- Tools Used: Python | Django REST Framework (DRF) | React.js | SQLite | JWT

EDUCATION

University of Calicut, Bachelor's Degree in Commerce (B.Com)

Mar 2019 – Nov 2024

- Completed undergraduate studies with a focus on commerce, accounting, and business fundamentals.
- Transitioned into the tech field with a specialization in Python Full Stack Development through internship and project works.

CERTIFICATION

Python Web Development Expert – A+, Luminar Technolab, Cochin, Kerala | 2026

- Certified by National Council for Technology and Training (NCTT), New Delhi.
