COURSEWORK

POST GRADUATE

Exam Result System – Flutter,
React, NodeJS & MySQL

- Student Result Management
- Course Data Handling
- Real-time REST APIs
- Role-based Authentication
- Performance Analytics

UNDERGRADUATE

Real-Time Chat Application –
Android & Firebase

- Firebase Authentication
- Group & Individual chats
- Typing & Read Indicators
- Instant Messaging
- Media File Sharing
- Push Notifications (FCM)

SKILLS

PROGRAMMING

Over 5000 lines:

Java • Android • Flutter • Dart

Familiar:

MySQL • NodeJS • ReactJS • NodeJS

EXPERIENCE

FIVE 9S SOLUTIONS | ASSOCIATE SOFTWARE DEVELOPER

Apr 2024 - Sep 2025 | Hyderabad, TS

Project: HomeFood (Food Delivery Platform)

- Architected multi-platform using React and Flutter with State Management for customer, driver, and vendor applications.
- Integrated Razorpay/Stripe payment gateway with 99.8% transaction success rate and secure payment flows.
- Implemented real-time GPS tracking with geofencing for delivery drivers using Google Maps API.
- Collaborated with 5-member engineering team to reduce crash rate by 35% through systematic bug fixes and performance optimization

Project: Agri-IoT (Agricultural Management System)

- Developed end-to-end inventory management system tracking agricultural products and 200+ supply chain transactions.
- Built 12+ Django REST APIs with PostgreSQL achieving 99.5% uptime and optimized query performance.
- Converted 20+ Figma screens into pixel-perfect Flutter UI reducing design to development time by 45%.
- Achieved 90% test coverage through comprehensive unit and widget testing, reducing post-launch bugs by 70%
- Implemented Git workflow practices reducing merge conflicts by 60% and improving team collaboration

CORIZO EDTECH | SOFTWARE INTERN | REMOTE

Aug 2023 - Oct 2023 | Bangalore, KA

- Resolved 20+ critical bugs in live production environment affecting 5,000+ daily active users.
- Collaborated with cross-functional team of 10+ developers using Agile methodologies and version control best practices.

PERSONAL PROJECTS

SPLITIFY | FULL STACK DEVELOPER

Oct 2025 - Present | Hyderabad, TS

- Implementing group management system with real-time expense calculations and settlement tracking.
- Designing RESTful backend APIs with secure authentication and multi-user transaction handling.
- Integrating payment gateway for direct settlement options and automated expense notifications.
- Developing responsive UI with intuitive expense input, receipt scanning, and spending analytics dashboard.

ACHIEVEMENTS

GOOGLE DEVELOPERS GROUPS | GIS DEVELOPER

Presented a project on recording government assets such as hospitals, police stations, and other government facilities for efficiently mapping future infrastructure needs based on geo-location data
