 - **Tools:** Git, GitHub, AWS (EC2 – basic), Render, Figma, Postman, Netlify
-

Professional Experience

Full Stack Developer

Tron Digital — Thrissur, India (Remote – UAE Team)

May 2025 – Present

- Developed and delivered full-stack web applications using React and Django.
- Built and maintained 10+ React frontend projects with responsive and performance-focused UI.
- Developed backend features including APIs, authentication, and database management.
- Contributed to major products such as Handcar and AIReem Admin Dashboard.
- Collaborated with a remote UAE-based team on UI design, feature planning, and integration.

Python Developer Intern

Tron Digital — Thrissur, India

- Developed backend features using Python, Django, and PostgreSQL.
 - Implemented CRUD operations, RESTful APIs, and authentication systems.
 - Built responsive frontend interfaces and admin dashboards.
 - Used Git and GitHub for version control and collaboration.
-

Projects

Handcar – Full Stack eCommerce Platform

- Platform for car enthusiasts with Admin, User, and Vendor modules.
- Implemented product listings, cart, orders, and vendor-managed services.
- Integrated map-based vendor search for nearby services.
Tech: React, Django, PostgreSQL

Cryptonite – Mining Solutions Platform (Austria Client)

- Worked as Frontend Developer and assisted in backend Django development.
- Built responsive UI for mining machine sales, hosting, and rental services.
- Developed admin dashboard features for managing products and orders.

Intermine – Mining Web Application

- Developed both Admin and User dashboards with structured layouts and role-based views.
- Implemented React Query for efficient data fetching, caching, and state synchronization.
- Built fully responsive UI ensuring usability across desktop and mobile devices

Dahab Miners – Mining Website

- Collaborated with a team to build responsive frontend pages for mining machine sales and hosting services.
- Created reusable UI components to improve consistency and maintainability.
- Supported admin and user-side interfaces with mobile-friendly layouts.

AlReem – Gym Management Dashboard

- Developed an admin dashboard for managing gym members, staff, and branch administrators.
- Implemented role-based access control and structured data handling to streamline daily operations.
- Contributed to both frontend UI and backend API development using React and Django
- Packaged the application as a Windows .exe desktop software for client-side deployment.

HireInAbuDhabi

- UAE-based recruitment platform for candidates and employers.
- Enabled candidate profiles, resume uploads, and direct hiring workflows.
- Focused on clean UI and structured backend logic.

Education

Bachelor of Computer Applications (BCA)

Bangalore University | 2021 – 2024

Higher Secondary Education

Kerala State Board | 2019 – 2021
