PROFESSIONAL SUMMARY

Full Stack Developer with **2+ years** of experience building and shipping diverse software products including **CRM systems, B2B SaaS platforms, admin dashboards, CMS integrations, e-commerce platforms, and enterprise web applications**. Proficient in delivering end-to-end solutions — from backend API design and database architecture to pixel-perfect frontends and cloud deployments. Experienced across both product-based and service-based environments, collaborating with cross-functional teams and managing the complete development lifecycle from requirements to production.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Redux Toolkit, HTML5, CSS3, TailwindCSS, Bootstrap, Material UI, jQuery, Ajax

Backend: Node.js, Express.js

Databases & ORMs: MongoDB, Mongoose, PostgreSQL, Sequelize, TypeORM

API Development: RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC)

CMS: Strapi, Headless CMS Integration, Content Workflow Automation

Software Types Built: CRM Systems, B2B SaaS Platforms, Admin Dashboards, E-commerce Platforms, CMS-Driven Websites, Real Estate Management Systems, Booking & Reservation Platforms, EdTech Platforms, Logistics & Fleet Management Apps, ERP Modules, Portfolio & Corporate Websites

Real-time: Socket.io, WebRTC

Version Control: Git, GitHub

Cloud Services: AWS (EC2, S3, Lambda, SES, SNS, Amplify, Route53, RDS, ECR), Oracle Cloud (OCI), Firebase, GCP

Deployment & DevOps: Docker, NGINX, PM2, Linux Server Administration, CI/CD Pipelines, Environment Configuration

Testing & Debugging: Postman, Playwright, Cypress

Architecture: MVC, Clean Architecture, Microservices, Multi-Tenant Architecture

Message Queue: Kafka

Integrations: Razorpay Payment Gateway, Third-party APIs, Webhooks

Other Tools: Figma, SEO Best Practices, Data Structures & Algorithms, OOP

EDUCATION

- **MERN Stack Development** 2022 – 2023
Brototype, Kochi
- **BCOM – Bachelor of Commerce** 2018 – 2021
College of Commerce, Kannur

EXPERIENCE

Lyndata Labs Private Limited

Full Stack Developer

Mar 2025 – Mar 2026

Infopark, Kakkanad, Kochi

- Delivered **14+ client projects** across CRM systems, B2B SaaS platforms, CMS solutions, admin dashboards, e-commerce platforms, real estate apps, and corporate websites in a fast-paced service-based environment.
- Built full-stack features including **secure REST APIs, admin dashboards, role-based access control (RBAC)**, and responsive frontends using Node.js, Express.js, React.js, and Next.js.
- Designed and developed **CRM modules** featuring lead lifecycle tracking, customer segmentation, activity logging, pipeline management, and operational admin workflows.
- Architected and shipped a **B2B SaaS platform** with multi-tenant isolation, subscription billing logic, feature gating, and scalable backend services.
- Implemented and customized **Strapi CMS** for content-driven projects, enabling non-technical teams to manage publishing workflows and reducing content turnaround time significantly.
- Configured **cloud deployments** on AWS (EC2, S3, RDS, Amplify) and Oracle Cloud (OCI), set up NGINX reverse proxies, Docker containers, and managed production Linux environments.
- Integrated **Razorpay payment gateway**, third-party APIs, and webhook handlers for business-critical transactional workflows across multiple client projects.
- Projects delivered: *U scholar (EdTech)*, *Taste Cell (Food Industry)*, *Astranex*, *Jaigure*, *RMA*, *Hyve (Hotel SaaS)*, *Auronex*, *Pyramid*, *Ghala (Logistics)*, *Aeden*, *Udrive (Fleet Management)*, *Finexx (FinTech)*, *Alhub*, and *E-commerce Platform*.

Raftel Technologies Private Limited (Fastail)

Full Stack Developer

Oct 2023 – Feb 2025

Kaloor, Ernakulam, Kerala

- Contributed to end-to-end development of web products using the MERN stack, including **admin panels, booking platforms, and content management features**.
- Built reusable, scalable frontend components and RESTful backend APIs for database-driven web applications serving real business users.
- Integrated third-party services including **payment gateways, cloud storage (AWS S3), and notification services** for business-critical workflows.
- Collaborated on feature planning, bug resolution, API testing with Postman, and coordinated release cycles in an agile delivery environment.
