Passionate Full Stack Developer with strong expertise in frontend technologies including HTML, CSS, JavaScript, React, and Next.js, along with backend development using Python (Django and Flask). Experienced in designing and developing responsive, user-centric web applications, integrating RESTful APIs, and building scalable full-stack solutions. Proficient in Material UI and modern frontend development practices, with solid understanding of backend architecture, database management, authentication, and API design.

Work Experience

Full Stack Developer Intern (React + Python)

Upcode Software Lab

August 2025 to April 2026

Technologies: HTML, CSS, Bootstrap, JavaScript, React, Next.js, Material UI (MUI), Python, Django, Git

- Designed and developed responsive UI layouts using HTML, CSS, Bootstrap, and Material UI (MUI)
- Built scalable frontend applications using React and Next.js with a component-based architecture
- Developed and integrated RESTful APIs using Python and Django (Django REST Framework)
- Implemented routing, reusable components, and state management for smooth application flow
- Managed version control using Git and followed collaborative development practices
- Improved application performance through optimized frontend rendering and backend API integration

Education

Secondary School

Higher Secondary School

BCOM

IGNOU University
