

Nizamudeen N

FULL STACK DEVELOPER

✉ workfornizam@gmail.com ☎ 91 9526642245  LinkedIn  Github  Kochi

Professional Summary

Full Stack Developer with 2+ years of experience building scalable, high-performance web applications using React.js, Next.js, Angular, Node.js, and TypeScript. Experienced in developing responsive user interfaces, REST API integration, and performance optimization. Skilled in leveraging AI tools and coding agents such as Claude, Codex, and ChatGPT to improve development efficiency and automation. Passionate about building modern, scalable, and production-ready applications.

Professional Experience

Jun 2024 – Dec 2025
Trivandrum

Software Engineer

Solwyz Technologies 

- Developed and deployed scalable web applications using React.js, Next.js, Angular, TypeScript, and Tailwind CSS, delivering responsive and high-performance user interfaces across multiple domains.
- Built SEO-optimized Next.js applications using Server-Side Rendering (SSR) and Static Site Generation (SSG), improving page load speed and search engine visibility.
- Designed and implemented reusable, modular, and maintainable frontend components following modern JavaScript and component-based architecture.
- Developed and integrated RESTful APIs using Node.js and Express.js to enable dynamic data handling and seamless frontend-backend communication.
- Implemented responsive web design, ensuring cross-browser compatibility and mobile-first development using Tailwind CSS and modern CSS techniques.
- Collaborated with cross-functional teams including UI/UX designers, backend developers, and stakeholders to deliver production-ready applications.
- Used Git and GitHub for version control, branch management, and collaborative development in agile environments.
- Optimized application performance using lazy loading, code splitting, and performance best practices to enhance user experience.
- Integrated third-party APIs and services for authentication, data management, and external system connectivity.
- Leveraged AI tools and coding assistants such as Claude, Codex, and ChatGPT to accelerate development, debugging, and productivity.
- Deployed and managed frontend applications using modern hosting platforms such as Vercel and Netlify, ensuring high availability and performance.

Nov 2023 – May 2024
Kochi

Junior Full Stack Developer

DX GLOBAL SOFTWARE SOLUTIONS

- Designed and developed user interfaces with React.js aligned with modern UI principles.
- Collaborated with design teams to translate Figma prototypes into functional interfaces.
- Implemented and tested frontend integration with RESTful backend services.

Apr 2023 – Nov 2023
Kochi

MEARN STACK DEVELOPER INTERN

Luminar Technolab

- Developed multiple full-stack applications using React.js, Angular, Node.js, and MongoDB.
- Built server-side logic and REST APIs to manage user and product data.
- Ensured consistent state handling and validation across frontend forms.

Education

Apr 2023 – Nov 2023
