## Professional Summary

---

Full-stack MERN developer with experience in building scalable web applications and real-time features using React.js, Node.js, Express.js, and MongoDB. Skilled in designing REST APIs, implementing JWT authentication, and optimizing performance for better user experience.

## Education

---

Greater Noida Institute of Technology (GNIOT) Bachelor of Technology in CSE– CGPA: 7.2/10.0 2026	Greater Noida, India Nov 2022 – May
JS Public School Intermediate -Percentage:75%	Aligarh Completed

## Technical Skills

---

**Languages:** JavaScript (ES6+), C++, Python, Java

**Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

**Backend:** Node.js, Express.js, REST APIs, WebSocket, Socket.io

**Databases:** MongoDB, MySQL

**Tools & Cloud:** Git, GitHub, Postman, Render, Netlify, AWS S3

## Projects

---

### Blog Platform | MERN Stack, WebSocket Nov 2024-Jan 2025

- Built and deployed a full-stack blogging platform with JWT-based authentication, enabling secure user login and content management
- Designed RESTful APIs and integrated real-time commenting using WebSocket, improving user interaction and engagement
- Configured CORS, environment variables, and deployed backend on Render with seamless frontend API integration.
