Profile

MERN Stack Developer with internship experience building full-stack web applications using **React, Node.js, MongoDB, and GraphQL**. Experienced in delivering real-world products and SaaS MVPs with a focus on clean code and usability.

Internship Experience

Project Intern, Strackit Private Limited Present
Coimbatore

- Worked on live client applications using the **MERN stack** across frontend and backend.
- Integrated and consumed **GraphQL APIs** for efficient data handling.
- Debugged production issues and enhanced features based on mentor feedback.
- Used **AI developer tools** to improve debugging speed and code quality.

Junior Associate Developer Intern, Calanjyam Consultancies and Technologies 03/2024 – 05/2024
Remote

- Contributed to **HRMS, Project Management, and Logs Maintenance systems**.
- Worked across frontend and backend using **React, JavaScript, PHP, and MySQL**.

Education

B.E. - Computer Science and Engineering, KS Rangasamy College of Technology 2022 – 2026
Tiruchengode
CGPA: 8.01

Skills

Frontend

React, HTML, CSS, JavaScript

Backend

Node.js, Express

Database

MongoDB, Mongoose

Auth & Tools

JWT, GitHub OAuth, Git, Postman

Languages

- English
- Hindi
- Tamil

Projects

NeuralQuery, [🔗](#)

- Built a full-stack **RAG application** with React (Vite, Tailwind) and Express + MongoDB, enabling document upload, Q&A, and retrieval via REST APIs.
- Implemented **embedding-based retrieval** (Hugging Face, cosine similarity) and grounded responses using Groq LLM.

CommitPay, Open-Source Monetization Platform [🔗](#)

- Building a SaaS MVP enabling maintainers to post **paid beginner-friendly OSS issues**.
- Implemented **GitHub OAuth**, maintainer dashboards, and contributor workflows.
- Built using **React, Node.js, MongoDB**, with scalable data models.
