## SUMMARY

---

Highly motivated and detail-oriented Full Stack Developer with strong proficiency in React.js, Node.js, Express.js, MongoDB, SQL, and ASP.NET Core Web API, seeking to contribute to dynamic web development projects in a fast-paced environment. Passionate about building scalable, secure, and high-performance web applications using modern technologies and best coding practices across both frontend and backend systems. Committed to continuous learning, writing clean and maintainable code, and collaborating effectively to deliver impactful business solutions.

## PROFESSIONAL EXPERIENCE

---

### Full Stack Developer (MERN)

Nov '24 — Jul '25

Futura Labs, Kozhikode

Kozhikode, India

- Designed and developed responsive, scalable web applications using React.js, Node.js, Express.js, and MongoDB, improving UI performance and backend functionality.
- Built RESTful APIs and integrated third-party APIs for seamless data flow and enhanced system reliability.
- Implemented JWT authentication and middleware-based authorization, ensuring secure access control.
- Provided technical mentorship to junior team members and promoted best practices through code reviews.
- Led the project lifecycle from planning to deployment using Git, GitHub Actions, and version control strategies.
- Conducted usability testing and optimized application performance for improved UX and load time efficiency.

## PROJECT

---

### TradeLog [Link](#)

- Developed a full-stack trading journal application for users to record and manage trades with analytical metrics and visual dashboards.
- Implemented JWT-based authentication with HTTP-only cookies and secure API routes for sensitive data.
- Designed a responsive React UI featuring form validation, dynamic rendering, and CRUD operations.
- Built an admin dashboard to manage users, roles, and activities with MongoDB-based filtering and role-based access control (RBAC).

### CineScope [Link](#)

- Developed a full-stack movie review application with React.js, Redux, and ASP.NET Core Web API connected to a SQL database.
- Implemented user authentication, role-based access control (RBAC), and admin moderation for secure content management.
- Built CRUD functionality for movies and reviews, including user submissions, ratings, and comments.
- Designed a responsive, modern UI using Tailwind CSS and shadcn/ui, with Formik + Yup for robust form validation.

## EDUCATION

---

**Bachelor of Technology in Computer Science and Engineering**, Royal College of Engineering 2020 — 2024  
and Technology, Thrissur, India

## CORE COMPETENCIES AND SKILLS

---

- **Front-End Development:** Skilled in React.js, Redux, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui, and Framer Motion to build interactive, responsive, and visually appealing user interfaces optimized for usability and performance.
- **Back-End Development:** Proficient in Node.js, Express.js, and ASP.NET Core Web API to develop scalable, modular, and secure RESTful APIs, ensuring smooth data flow and high application reliability.
- **Database Management:** Experienced in SQL and MongoDB for designing efficient data schemas, optimizing queries, and maintaining high-performance databases with secure data handling.
- **Version Control & Deployment:** Strong command of Git, GitHub Actions, Vercel, and Render for code versioning, automated CI/CD pipelines, and reliable cloud deployment workflows.
- **Testing & Debugging:** Competent with Postman, VS Code, and Visual Studio to perform API testing, code validation, and bug resolution, ensuring error-free and optimized software performance.
- **API Integration & Optimization:** Experienced in integrating third-party APIs and optimizing data communication layers to improve backend efficiency and reduce latency.
- **Performance Optimization & Deployment Management:** Focused on improving frontend load time, backend execution speed, and deployment scalability using caching, load balancing, and efficient CI/CD workflows.
- **Other Tools & Technologies:** Adept in Nodemailer, SendGrid, API middleware, and modular backend services to streamline integrations and enhance overall application functionality.
- **Languages** English, Malayalam
