## MERN Stack Developer

✉ navaneethkk03@gmail.com ☎ 9526950256 📍 wayanad,kerala,india 🌐 LinkedIn 📁 Portfolio

### Profile

---

Self-learned **MERN Stack Developer** with a strong passion for building user-friendly, visually appealing, and high-performance web applications. Skilled in React, Node.js, Express, and MongoDB, along with experience in designing intuitive interfaces, wireframes, and user flows. I combine technical development skills with design thinking to create digital products that look great, function smoothly, and deliver meaningful user experiences.

### Professional Experience

---

**MERN STACK INTERN** 11/2024 – 11/2025  
Acodez IT Solutions Calicut

- Studied MERN Stack development and built hands-on projects using MongoDB, Express.js, React, and Node.js.
- Gained experience in creating responsive front-end interfaces and developing functional backend APIs.
- Learned key UI/UX design principles, including wireframing, prototyping, and visual design using Figma.
- Developed user-centered designs by understanding user flows, layout structure, and usability best practices.
- Combined design and development skills to create web applications that are both

### Education

---

**Diploma in Full Stack Development(MERN)** 2024 – 2025  
Avivdigital-Calicut

**Plus two (COMMERCE)** 2020 – 2022  
ghss panamkandy Wayanad

### Skills

---

- **Frontend Development**  
React.js, Redux, HTML5, CSS, JavaScript (ES6+), Tailwind CSS, Vite
- **Database Management**  
MongoDB, Mongoose, Firebase,sql
- **Version Control**  
Git, GitHub
- **Other Skills**  
UI/UX Design, Responsive Design
- **Backend Development**  
Node.js, Javascript, Express.js, MongoDB, mongoose
- **Web Design Tools**  
Figma
- **Tools**  
Code, Figma

### Projects

---

#### Student Punch-In / Punch-Out Attendance System – MERN Stack

Developed a web-based attendance management system that allows students to punch in and punch out to record daily attendance. Built an admin dashboard to monitor attendance records and manage students using React, Node.js, Express, and MongoDB with secure JWT authentication.

### **Facebook Login Page Clone – HTML, CSS**

Developed a responsive clone of the Facebook login page using HTML and CSS, replicating the layout, styling, and user interface design to improve front-end development skills.

### **Educational Website Clone – React, Tailwind CSS**

Developed a responsive educational website clone using React and Tailwind CSS, focusing on modern UI design, reusable components, and responsive layouts to enhance front-end development skills.

### **CRUD Application – MERN Stack**

Developed a full-stack CRUD application to manage user data with features like user registration, login, and data management. Built RESTful APIs using Node.js and Express, integrated MongoDB for database operations, and developed the front-end using React.

### **Portfolio Website – React, Tailwind CSS**

Developed a responsive personal portfolio website using React and Tailwind CSS to showcase projects, technical skills, and contact information with a modern UI design.

### **Todo List Application – React.js**

Developed a Todo List web application using React.js that allows users to add, edit, and delete tasks. Implemented state management using React Hooks and a modal interface for editing tasks.

### **Student Attendance Application - MERN stack**

Developed a web-based attendance management system that allows students to punch in and punch out to record daily attendance. Built an admin dashboard to monitor attendance records and manage students using React, Node.js, Express, and MongoDB with secure JWT authentication.

### **Tumble Run Game Clone – React, Tailwind CSS**

Developed a clone of the Tumble Run game using React and Tailwind CSS, focusing on interactive UI design and responsive layouts to replicate the gameplay interface.
