## PROFESSIONAL SUMMARY

Detail-oriented and innovative software engineer with hands-on experience in full-stack web development, specializing in Python, Django, ReactJS, and modern front-end technologies. Adept at building scalable and responsive web applications with a strong focus on user experience. Proven ability to adapt quickly to evolving technologies and deliver impactful software solutions in collaborative environments.

## WORK EXPERIENCE

### Green Integrated Information Technology LLC - UI/UX Developer

Aug 2023 – Present

Kerala, India

- Developed and deployed fully functional websites using HTML, CSS, ReactJS and JavaScript, leveraging modern UI/UX design principles to optimize user engagement and responsiveness.
- Designed user-friendly mobile apps and responsive websites using Figma.
- Regularly updated and maintained pages on existing websites to ensure content accuracy, visual consistency, and optimal performance.
- Created and managed invoices and quotations for clients, ensuring accuracy and timeliness in billing processes using HTML and CSS.
- Identified and resolved issues in company software, enhancing usability and functionality.
- Updated software designs based on client feedback and emerging trends to align with their interests and preferences.

## PROJECTS

### AIRSCRIPT - CREATING DOCUMENTS IN AIR | Python, OpenCV

Jan 2023

- Developed an interactive application using Python and OpenCV for real-time document creation and visualization.
- Integrated a natural user interface leveraging gesture recognition and responsive design techniques.
- We create a canvas and pick the colors required using our hand and draw the required design or write anything you wish.

### CAPICLEAN - HOUSE CLEAN | Python, Django, HTML5, CSS, Bootstrap, PostgreSQL

Dec 2023

- Designed and implemented a responsive web application for managing cleaning services, featuring CRUD operations for seamless data handling.
- Built backend systems using Django, integrated database queries with PostgreSQL, and deployed using Agile methodologies.

## TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, C, C++
- **Web Development:** HTML5, CSS3, Bootstrap, ReactJS, Django
- **Databases:** MySQL, PostgreSQL
- **Tools Platforms:** Git, Visual Studio, Sublime Text, Figma, OpenCV
- **Software Development:** Full Stack Development, CRUD Operations, Responsive UI, Agile Methodologies

## EDUCATION

### Master of Computer Applications

Jul-2019 – Nov-2022

Dr Janaki Ammal Campus

Kannur, Kerala

## INTERNSHIP

### Python Full Stack Development Using Django Framework

Oct-2022 – Apr-2023

Zonemac IT Solutions

Calicut, Kerala

## CERTIFICATES

- Completed training in Full Stack Development using Django Framework
- Certification in Basics of Python
- Certification in Python for Beginners
